

ACCESSING YOUR CAMPUS NFTs

All CAMPUS and Campus Legends NFTs are yours and stored in non-custodial wallets that only you control.

If you purchased CAMPUS tokens with a credit card via crossmint and never moved your tokens into Torus, Phantom, or another Solana-compatible wallet, they are still stored in your crossmint wallet. Similarly, if you purchased Campus Legends tokens prior to the conversion to CAMPUS and never moved those tokens into Torus, Phantom, or another Solana-compatible wallet, they are still stored in your crossmint wallet.

To access your NFTs via crossmint, go to crossmint.io and log in using the email tied to your original CAMPUS or Campus Legends account at the time of purchase. You'll need to re-set your password (check your spam if you don't receive the email from crossmint). Once in crossmint, you can access and transfer your NFTs by following their instructions.

If you have a CAMPUS login, you can view and share your collection from this site as a complementary viewing mechanism.

Note that CAMPUS is no longer re-setting passwords or supporting this site, as it is not issuing new NFTs and all previously-minted NFTs are already under your control.
